

My family and I are K-LOVE listeners and supporters and are concerned that future laws might impact our ability to receive the current signal and service. K-LOVE is a valuable service providing family entertainment and always broadcasting good, clean kid safe content, something that is in short supply these days. If this service was not available, our local community would be impacted in several ways, mainly it would lose the high quality risk free 24 hour a day programming that is their trademark. Our community supports this station through donations and that alone is evidence of the value the people of Northern Utah place on it. This station provides serves the community and we value its availability, and would greatly miss it if it were lost. Please protect the availability of K-LOVE in the Utah area.
